ALVISON HUNTER

SENIOR FRONTEND WEB DEVELOPER

JavaScript | TypeScript | Python | C# | Golang

PROFESSIONAL PROFILE

Experienced software engineer with 7+ years in web development, specializing in JavaScript frameworks like Ember, Vue, React, Next.js, and AngularJS. Proficient in backend technologies including Auth0, Prisma, REST APIs, GraphQL, Node.js, and Python, with expertise in API integrations (HubSpot, DocuSign, Dropbox Sign). Skilled in headless CMS platforms (Contentful, Strapi, Sanity) and WordPress. Strong experience in data migrations from SQL to NoSQL databases (PostgreSQL to MongoDB). Adept at building HubSpot landing pages and integrating Zendesk, LivePerson, and Genesys Cloud widgets. Demonstrates leadership in Agile/Scrum environments, leveraging tools like Jira, Notion, and Trello. Versatile team leader with additional strengths in manual QA, business analysis, and workforce management.

WORK EXPERIENCE

Frontend Web Developer
2025 - MGT Insurance - Colorado, USA

Developing a Next.js 15 app with Prisma, PostgreSQL, & MongoDB for user data, integrated with Auth0 for authentication. The app streamlines insurance requests by automating agent status checks, credit & permit verifications, criminal record checks, e-signing via DocuSign, while seamlessly uploading files & photos to Dropbox through API integration.

Frontend Web Developer
2024 - Udemy- California, USA

Built a Next.js application within a Python & React 16 monorepo to modernize the leads system, contacts management, sales processes, promotions, and online course features. This application formed the foundation for the modern infrastructure launched in 2025.

Frontend Web Developer
2024 - Amni AI - Gainesville, FL - USA

Build a responsive, SEO-friendly manufacturing app using Next.js 13, TypeScript, and Ant Design 5. Transform Figma designs into functional code, optimize components, and develop secure AWS-backed services with SST. Enable live Lambda updates, integrate JWT authentication, and collaborate with the frontend team to deliver features, review code, and resolve issues

- HTML, CSS, JavaScript | ES6+
- Responsive Web Design
- JavaScript Frameworks & Libraries
- Web Performance Optimization
- Version Control/Git
- Cross-Browser Compatibility
- Performance Optimization
- Web Accessibility (WCAG)
- Testing/Debugging
- Command Line Fundamentals
- HubSpot Landing Pages
- HubSpot Lead Forms
- Zendesk Widgets using React

SOFT SKILLS

- Team Work
- Time Management
- Leadership
- Communication
- Problem-Solving
- Critical Thinking
- Attention to Detail
- Adaptability
- Creativity
- User-Centric Mindset
- Continuous Learning
- Attention to Performance
- Conflict Resolution
- Customer Focus

Frontend Web Developer

2024 - Catalis - Alpharetta, GA - USA

Developed & implemented a highly efficient court and land records app for a private company. This specialized app streamlines court workflows, reduces inefficiencies, and eliminates case backlogs. Additionally, our solutions ensure compliance with state, local, and federal regulatory changes for US government agencies.

Frontend Web Developer

2023 - TrueHold - Atlanta, GA - USA

Developed, released, and maintained multiple apps in a monorepo, ensuring top performance and user experience. This effort helped maintain the company's position as a leading provider of residential sale-leasebacks in the USA, enabling homeowners to access home equity without moving or incurring debt, thanks to our web solutions.

Frontend Web Developer

2023 - Semy - Miami, FL - USA

Developed a social e-commerce platform enabling users and businesses to send personalized gifts and messages through a mobile app. Utilized React and Firebase to deliver web version, expanding reach and functionality from mobile.

Frontend Web Developer

2022 - ChatLingual - New York, NY - USA

Developed and implemented a highly efficient web app for a private company, specializing in integrating SalesForce, livePerson, Genesys Cloud, and Zendesk web widgets. Enabled seamless connectivity and data exchange. Integrated the DeepL Translator API for multilingual communication across cases, emails, tickets, and web forms.

Frontend Web Developer

2021 - getReef - Miami, FL - USA

Developed an e-commerce web app for a private company specializing in selling parking tickets, offering food for delivery and pickup, and hosting popular fast food restaurants in movable posts or kiosks. One of my roles as frontend developer involved utilizing micro-frontends to enhance user interactions within the application.

Frontend Web Developer

2021 - Private Agency - USA

Successfully collaborated and implemented UI enhancements on a web app for a US car dealer, streamlining operations. Automated tasks, boosting productivity, and led budget planning for better financial management and cost optimization.

EDUCATION

Web Development - Technical Degree
2004 - UNI Managua - Nicaragua

Graphic Design - Technical Degree
2015 - UNI Managua - Nicaragua

VB .NET | SQL Server - Tech Degree
2008 - UNI Managua - Nicaragua

Computer Programmer - Tech Degree
1996 - Intae Granada - Nicaragua

Automotive Mechanic - Tech Degree
1990 - Instituto Tech. Nacional - Nicaragua

CODING LANGUAGES

- JavaScript Expert - 95
- Python Specialist - 90
- Visual Basic Pro - 85
- VBA | Excel Master - 80
- TypeScript Practitioner - 85
- FoxPro Proficient - 80
- C# Enthusiast - 65

HOBBIES

- Play musical instruments
- Compose Lo-Fi Beats
- Learn World Languages
- Photography & Videography
- Cook & Foodie Adventures
- Reading & Learning
- PodCasting & Streaming

Frontend Web Developer
2021 - Monyta - Australia

Provided UI enhancements for a sleek web app to efficiently oversee client sales bots, leading prospects through a streamlined process via speech or chat. Leveraged AI models & scripts for enhanced web interactions, boosting sales conversions and revenue on client's site.

Frontend Web Developer
2021 - Solid Logix LLC - USA

Developed a top-notch Web App, optimizing API performance by measuring payload size, request duration, routing, and status codes. I also set up a Cron Job-based monitoring system for automated performance tracking, and designed a user-friendly interface for efficient analysis, boosting optimization efforts.

Frontend Web Developer
2020 - Solid Logix LLC - USA

Participated in the initial planning, wireframing, & concept development for a Recruitment & Applicant Tracking Web App. Utilized Balsamiq for key concepts & initial screens. Implementation probably took placed after I resigned from this company.

Frontend Web Developer
2019 - Solid Logix LLC - USA

Designed, implemented, and maintained a Virus Study Testing tool for multiple US laboratories and their branches. Managed virus testing study reports and statistics. Established a unique brand identity for customer web apps and ensured continuous support and maintenance.

PROJECT CASES

INDUSTRY	PROJECT SCOPE	TECH STACK
Education	Developing a NextJS app from a Python/React monorepo for leads, sales, promotions, and courses, launching 2025.	NextJS, Python, React, Redux, Zod, Mobx, Django, Enzyme, Jest, React Testing Library, Sentry, DataDog, TurboPack, Lerna, Mise, Stencil, Storybooks
Manufacturing	Build a responsive, SEO-friendly supply chain app with NextJS 13, TypeScript, Ant Design 5, AWS, and SST.	NextJS 13, TypeScript, Ant Design 5, AWS Amplify, AWS Serverless Stack (SST), Figma, Live Lambda Development, JWT Authentication

PROJECT CASES

INDUSTRY	PROJECT SCOPE	TECH STACK
Services	Managed Monorepo with multiple apps for a top BBB-accredited US residential sale-leaseback firm.	Next.js, React, React Query, React Table, Turbo Repo Build, StoryBooks, MuleSoft, Spring Boot, Java, Google Maps, Sentry.
Services	Created React-based web app for social e-commerce, enabling personalized gift messaging. Hosted on Firebase.	React, Context API, REST API, FireBase, PropTypes
Services	Created web app integrating SalesForce, LivePerson & Zendesk widgets, utilizing DeepL Translator API for multilingual support.	Preact, Apex, GraphQL, LivePerson, Zendesk (SDK & API), Genesys Cloud (API & SDK)
Services	Created e-commerce web app for private company selling tickets, food, and fast food via micro-frontends.	React, Redux, TypeScript, MongoDB, NodeJS, Stripe.
Services	Developed AI-driven Sales bot web app, driving revenue through guided interactions.	Python, Laravel, Vue, VueX, PHP, Blade, Bootstrap 5
Real Estate	Contributed to initial planning, wireframing, & concept development for Recruitment & Applicant Tracking App.	Balsamiq, Adobe XD
Information Tech	Created web app to optimize API performance, running as Cron Job for automated monitoring.	Preact, Context API, Postman/Newman CLI, AWS CodeBuild
Services	Revamped UI for US car dealer web app, optimizing services, automation, budgeting, and sales flow.	React, jQuery, Context API, MongoDB, Express
Services	Created Virus Study Testing tool for US labs, oversaw data, and built web app brand.	React, Redux, Node.js, MongoDB, ExpressJS.
