SUMMARY

Senior Frontend Engineer with 10+ years of experience building scalable, high-performance web applications using **React, Next.js, TypeScript, JavaScript, Node.js, GraphQL, REST APIs**, and modern frontend tooling. Proven success delivering complex projects for U.S. and European companies in remote, cross-functional, and Agile environments. Strong UI engineering, API integration, architectural decision-making, and component-driven development. Experienced in monorepos, cloud-integrated apps, SEO-optimized platforms, and frontend performance tuning.

Core strengths: Frontend architecture • State management • React/Next.js ecosystems • API integrations • SPA/PWA development • Remote collaboration • Agile/Scrum • Mentoring & code reviews.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript (ES6+), TypeScript, Vue.js, AngularJS, EmberJS, Gatsby, Preact, HTML5, CSS3, Tailwind, Booststrap, SemanticUI, MaterialUI, Ant Design & Mantine Library.
Backend / APIs: Node.js, Express, REST APIs, GraphQL, Firebase, AWS Amplify, SST (Serverless Stack), Supabase.
Tooling & DevOps: Git, GitHub, CI/CD, Monorepos, Nx, Vite, Webpack, Docker, Serverless, Cloud Functions.
Testing: Jest, React Testing Library, Cypress.
CMS / JAMstack: Contentful, Strapi, Sanity, KeystoneJS, NetlifyCMS.
Data & Other: Python (FastAPI, Flask), MySQL, PostgreSQL, MongoDB, SQL Server.

Languages: Spanish (Native), English (Native-Level), French (Professional), Portuguese (Professional), Italian (Professional), German (Working).

PROFESSIONAL EXPERIENCE

MGT Insurance — Senior Web Application Developer

01/2025 – Present

- Developed a modern insurance automation platform using **Next.js + TypeScript**.
- Integrated **DocuSign** and **HubSpot** APIs for workflow automation.
- Created reusable components, multi-step form wizards, and optimized UI flows.

Udemy — Senior Web Application Developer

07/2024 – 01/2025

- Developed a **Next.js application** within a Python + React monorepo.
- Modernized lead processing, contact management, sales workflows, and course features.
- Delivered foundational features for Udemy's 2025 infrastructure rollout.

Allied Global Technology Services — Senior Web Developer (Amni AI)

06/2024 – 07/2024

- Developed a supply chain platform using **Next.js 13, TypeScript, and Ant Design**.
- Integrated AWS Amplify, SST, and secure JWT authentication.
- Implemented responsive components from Figma prototypes.

Allied Global Technology Services — Senior Software Engineer (Catalis)

10/2023 – 06/2024

- Contributed to court and land-record management systems for U.S. government clients.
- Improved FE performance, workflows, and architectural consistency.
- Ensured compliance with state, local, and federal requirements.

Applaudo — Senior Frontend Developer (Truehold)

03/2023 – 10/2023

- Developed and maintained several **React/Next.js monorepo** applications.
- Improved performance, DX, accessibility, and component ecosystem stability.

Applaudo — Senior Frontend Developer (Semy)

11/2022 – 02/2023

- Developed a social e-commerce web application using React and Firebase.
- Built personalized gifting flows and delivered the full web version.

Applaudo — Senior Frontend Developer (Chatlingual)

08/2021 – 12/2022

- Developed front-end integrations for Salesforce, LivePerson, Genesys Cloud, and Zendesk.
- Integrated DeepL API for multi-language translation workflows.
- Enhanced FE performance and cross-platform communication.

Monyta — Frontend Web Developer

01/2022 – 12/2022

- Improved UI/UX for lead-generation and sales bot management platform.
- Implemented conversational AI integrations, improving conversion rates.

SolidLogix — Frontend Web Developer

09/2019 – 08/2021

- Built responsive interfaces using HTML/CSS, modern JS, and componentized UIs. Integrated backend API data and improved FE performance.

FOUNDATIONAL EXPERIENCE (2000 – 2017)

Building 17 years of progressive technical expertise

Engineering & Development:
Infosystem(Software Engineer): *Scaled applications for several clients and users, improved performance by 25%*

Microsoft (Reporting Analyst): *Automated reports saving 20+ hours/week, served 10k+ users*

UI/UX & Design:
CareerBuilder(UI/UX Design): *Designed 50+ client custom templates, improved engagement by 30%*

RE/MAX (Graphic Designer): *Created materials for 350+ properties, increased leads by 20%*

Leadership & Operations:
SMBS Solutions (Team Lead): *Managed team of 9, improved tasks resolution rates by 40%*

CareerBuilder(QA/Support): *Established quality assurance and troubleshooting expertise*
