PROFESSIONAL SUMMARY

AI-Integrated Full-Stack Engineer with 10+ years of experience designing and delivering scalable, high-performance web platforms across modern frontend and backend ecosystems. Specializes in React, Next.js, TypeScript, Python, and Node.js combined with Fastify and Objection/Knex.js, with strong expertise in API architecture, authentication systems, database design, and developer-friendly frontend architectures.

Proven record of delivering production-grade platforms for U.S. and European companies in remote Agile environments. Known for architecting maintainable systems that balance performance, scalability, and developer experience. Currently deepening expertise in LLM integration, AI-powered workflows using LangChain and the Anthropic API, and cloud-native architectures on AWS.

Core focus areas:

- Full-Stack Architecture & AI-Integrated Product Engineering
- Frontend Engineering, Design Systems & Accessibility
- REST & GraphQL API Design with secure authentication
- Scalable Data Layers — PostgreSQL, MongoDB, Prisma, Drizzle
- Cloud Infrastructure — AWS (EC2, S3, Amplify, Lambda, CloudFront, Route 53)
- Performance Optimization & Developer Experience

CORE TECHNICAL SKILLS

Frontend: React • Next.js • TypeScript • JavaScript (ES6+) • Vue.js • AngularJS • EmberJS • Gatsby • Preact

UI Frameworks: TailwindCSS • ShadCN • Mantine • Material UI • Ant Design • Bootstrap • Storybook

State & Data: Redux • React Context • TanStack Query

Backend: Node.js • Fastify • Express • REST APIs • GraphQL • JWT Auth • Python (FastAPI, Flask)

Databases: PostgreSQL • MySQL • MongoDB • SQL Server • Prisma • Drizzle ORM

AI / LLM: Anthropic API (Claude) • OpenAI API • LangChain (Python) • Cursor • Kiro • AI-augmented dev workflows

Cloud & DevOps: AWS (EC2, S3, Amplify, Lambda, CloudFront, Route 53) • Docker • CI/CD • GitHub Actions • Vite • Webpack • Nx Monorepos • Serverless Architectures

Testing: Jest • React Testing Library • Playwright • Cypress • Enzyme

Headless CMS: Contentful • Strapi • Sanity • KeystoneJS • NetlifyCMS

PROFESSIONAL EXPERIENCE

Freelance Software Engineer — Uniguest — pCare Interactive Patient Care System

Jan 2026 – Present • Remote

Providing engineering support optimizing and scaling a hospital patient engagement platform that transforms patient-room televisions into a mission-critical integrated hub for communication and EHR services.

Key Contributions

- Developed modules supporting Interactive Patient TV and digital whiteboards across hundreds of hospital rooms
- Integrated hospital services including EHR systems and telepresence tools, improving communication reliability
- Built secure multi-language surveys with XML components and PIN mapping. Supported large hospital digital projects for thousands of daily patients.

Senior Web Application Developer — MGT Insurance

Jan 2025 – Dec 2025 · Remote

Architecting a modern insurance automation platform designed to streamline internal workflows and client onboarding.

Key Contributions

- Built scalable Next.js 15 + TypeScript application architecture with Prisma ORM for clean database access patterns
- Developed complex multi-step form systems handling insurance workflows with Formik, Yup, and MUI 7
- Integrated DocuSign and HubSpot APIs for end-to-end document automation and CRM synchronization
- Improved UI consistency and component reuse through a shared design system backed by Storybook 8

Senior Web Application Developer — Udemy

Jul 2024 – Jan 2025 · Remote

Contributed to internal infrastructure supporting platform modernization within a Python + React monorepo.

Key Contributions

- Built a Next.js application layer inside a large-scale Python/React monorepo serving millions of learners
- Improved internal lead processing systems and data pipelines, accelerating campaign delivery cycles
- Delivered foundational architecture components adopted as standards for upcoming platform releases

Senior Web Developer — Allied Global Technology Services — Amni AI

Jun 2024 – Jul 2024 · Remote

Worked on a supply-chain intelligence platform for logistics analytics with AWS cloud integration.

Key Contributions

- Built responsive interfaces using Next.js 13 and TypeScript with Drizzle ORM for type-safe database operations
- Implemented secure JWT authentication workflows and role-based access across the platform
- Integrated frontend applications with AWS Amplify and SST services, deploying on EC2 and CloudFront

Senior Software Engineer — Allied Global Technology Services — Catalis

Oct 2023 – Jun 2024 · Remote

Worked on digital government platforms actively used by U.S. state agencies.

Key Contributions

- Refactored application architecture across multiple government portals, reducing technical debt and improving maintainability
- Improved frontend performance metrics by an average of 35% across platform modules
- Ensured compliance with government software accessibility and security standards (WCAG, OWASP)

Senior Frontend Developer — Applaudo — Truehold

Mar 2023 – Oct 2023 · Remote

Developed real-estate platform services within a Nx monorepo architecture.

Key Contributions

- Built scalable applications using React, Next.js, and TypeScript inside a multi-repo Nx workspace
- Improved accessibility (WCAG AA) and Core Web Vitals scores across the customer-facing platform
- Optimized developer workflows by implementing shared component libraries and CI/CD automations

Senior Full-Stack Software Engineer — Semy

Nov 2022 – Feb 2023 · Chicago, Illinois, USA — Remote

Developed the web version of a social e-commerce platform enabling users and businesses to send personalized gifts with messages, expanding the reach and functionality of the existing mobile app.

Key Contributions

- Built the responsive web application using React and Firebase, mirroring and extending the mobile app's gifting and messaging functionality
- Built real-time order tracking and personalized gift messaging using Firebase Firestore, while working with the mobile team to keep the user experience smooth on all devices.

Senior Frontend Developer — Applaudo — Chatlingual

Aug 2021 – Dec 2022 · Remote

Developed multilingual enterprise messaging tools integrating with major CRM and support platforms.

Key Contributions

- Integrated Salesforce, LivePerson, Genesys Cloud, and Zendesk into a unified messaging interface
- Implemented DeepL translation API workflows enabling real-time multilingual customer support
- Improved platform reliability and reduced integration-related incidents through systematic error handling

Reporting Analyst — Microsoft

Oct 2017 – Sep 2019 · Managua, Nicaragua — Remote

Key Contributions

- Automated reporting pipelines using Python and VBA scripts, saving 20+ hours per week in manual data processing
- Built and maintained dashboards to track operational KPIs across internal business units
- Collaborated with cross-functional teams to standardize data reporting formats and delivery schedules

UI/UX Designer & Motion Designer — CareerBuilder

Apr 2013 – Sep 2017 · Nicaragua

Key Contributions

- Designed 50+ client website templates and UI prototypes, increasing average user engagement by 30%
- Storyboarded and produced After Effects animations and Adobe Premiere video assets for client campaigns
- Led end-to-end website quality assessments covering source code, CSS, JS/PHP, responsive design, and SEO
- Ensured cross-browser compatibility (IE7 to Edge) and delivered rigorous QA reports to designers

EARLY CAREER HIGHLIGHTS

Software Engineer — Infosystem Co. · Sep 2011 – Jun 2012 (Part-time)

- Led .NET desktop development for Gym, Pharmacy POS, and Dentist Appointment systems. Implemented AngularJS, jQuery, HTML, and CSS for dynamic web reports. Improved system performance by 25% through code refactoring and SQL query optimization. Migrated Visual Basic 6 desktop apps to .NET environment.

Workforce Lead — Accedo Technologies · Jun 2010 – Dec 2012

- Managed schedules and workforce optimization using WFO software. Forecasted staffing requirements based on historical data, coordinated payroll, and maintained high service standards through real-time monitoring.

Head of Web Development & Team Lead — SMBS Solutions / CodeCrafters Labs · 2013 – 2021

- Led a team of 9 developers, improved issue resolution velocity by 40%, and oversaw client project delivery across web and mobile platforms in Latin America.

Graphic Web Designer — RE/MAX · Jan 2003 – Oct 2005

- Created marketing assets and web designs for 350+ real estate listings. Promoted to Assistant to Manager, overseeing photography, procurement, and office operations.

Co-founder & Software Developer — InfoSystem/CGA Solutions · Feb 2003 – Jan 2006

- Co-founded a software development company, leading the dev team and managing client relationships and marketing across multiple product lines.

WordPress Developer — Quattro Signs & Graphics · Aug 2008 – Jul 2009

- Developed and maintained WordPress-based client websites, including template customization and cross-browser troubleshooting.

Technical Support Analyst — Sitel / Sykes Enterprises · Apr 2002 – May 2010

- Provided technical support for Intel products. Advanced from Customer Service Rep to Technical Support Specialist and participated in the Workforce mentee program.

EDUCATION

Bachelor of Technology — Computer Programming — **Universidad Nacional de Ingeniería**

· *Nicaragua*

Associate of Science — Information Technology — **Latam Technologies**

Associate of Science — IT Administration & Management — **INTAE**

· *Nicaragua*

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** — Amazon Web Services
- **Cisco Introduction to Cybersecurity** — Cisco Networking Academy
- **Python for Everybody Specialization** — University of Michigan — Coursera
- **Python Development Professional Certification** — Institute of Management, Technology & Finance
- **CEO Chief Executive Officer Executive Certification** — Institute of Management, Technology & Finance
- **CTO Chief Technology Officer Executive Certification** — Institute of Management, Technology & Finance
- **Scrum Foundation Professional Certificate (SFPC)** — CertiProf

LANGUAGES

Native: Spanish

Fluent: English

Professional: French • Portuguese • Italian

Working proficiency: German

Currently learning: Mandarin Chinese • Dutch • Swedish

CURRENT LEARNING & EXPLORATION

Programming: Golang • Elixir • Ruby • Rust • Lua

AI / LLM: LangChain (Python) • Anthropic API advanced usage • OpenAI API • AI-augmented development workflows

Tools: Cursor • Kiro • v0 • Bolt • Lovable • Taskade
